Telephone:	604-253-5578
Name of Product:	Multiple

What's innovative about the product?

Heavily imported Spanish meats and cheeses. We're bringing new lines of jam with flavours like sour cherry, rose hip, and plum butter. Different Manchengo cheeses including 3 month, 6 month, and 12 month aged. Dried fruits and nuts in a Gluten Free cake with no fillers. Date and walnut, eggplant, and roasted red peppers spread. Halva (out of Greece), tahini, and a line of bouillon cubes without MSG. Different tapenades and Mediterranean antipastos. As our community becomes more culturally diverse, we want product to reflect these changes. We have a lot of Iranian and Mediterranean products to appeal to local European communities.

Will there be samples available at the show?
Yes
